

ENERGY SAVINGS & RECYCLING In One Box!

Smartpac

HID RECYCLING SERVICE

Smartpac® Recycling

- **FREE** - pay only for shipping
- **100% of the mercury** is reclaimed
- Meets all North American regulatory guidelines
- Solid materials are reprocessed for use as raw materials or safe disposal

Saving the Environment

Venture Lighting is committed to reducing energy dependence and pollution. Our energy-efficient systems conserve scarce, non-renewable fossil fuels by lowering electrical demand, which also decreases air pollution emitted by utilities. Our arc tube technology is safer for the environment, using 25% less mercury than standard probe start metal halide.

Mercury (Hg) Recycling

Venture's innovative *Smartpac* service solves your solid waste problem with simple no-fee HID lamp recycling for the United States and Canada. To learn more about recycling rules in your state or province, refer to the website www.lamprecycle.org, or contact your state for guidance.

Making a Difference

Just one customer of Venture, a national big box retailer, has recycled **37,000 lamps** and has helped save the world from **1.5 Kilograms** of mercury being released into the environment. Many more have used the service. *Smartpac* is just another way of how Venture makes a difference in the world.

As easy as...

1. Buy

Buy lamps from Venture Lighting. The lamp that gives you clean white light now comes with recycling as an added feature. Just put the used lamps in the Venture Lighting® packaging and shipping carton and then seal it.

2. Contact

Contact a *Smartpac* customer representative for your *Smartpac* Return Authorization Number. For details, call **1-888-223-6359** or fax us at 1-800-200-9718 or e-mail us at smartpac@adlt.com.

3. Ship

Ship the lamps back to Venture. Only lamps shipped in Venture packaging will be accepted.

Answers to Common Questions...

Do I have to recycle?

Proper disposal of mercury-containing lamps is required by law in all 50 states. In most states, and in Canada, recycling is the preferred option. Visit www.lamprecycle.org or contact your state or province to find out more.

What if I only have a few lamps?

The Smartpac HID lamp recycling service can work for as few or as many lamps as you use. Accumulate your used lamps in the Venture shipping carton and ship them back.

What if my used lamps are not from Venture?

As long as you bought new lamps from Venture, we'll handle the used HID lamps that are safely returned in a Venture lamp carton.

What if I want a certificate of recycling?

We will issue a certificate of recycling if you want it.

VentureLighting.com

What does it cost?

You just pay shipping. If you are in a state or province that promotes recycling, you can use a bill of lading to ship the used lamps back to us. Once your used lamps are received, we take care of the recycling, as an added service to you.

Do I need to ship my lamps in Venture packaging and shipping cartons?

Yes. Using Venture[®] packaging helps to assure that lamps are protected from breakage during transport, carry the proper package markings, and are returned as a "one-for-one" trade for new Venture lamps.

Who keeps the records?

The shipping record is your proof of proper disposal. In addition, we will keep active files of the recycling service for 5 years.

Does Smartpac recycle high pressure sodium lamps?

Yes, with the same easy, hassle free service, if you purchase Venture White-Lux[®] metal halide conversion lamps designed to be used in HPS fixtures. Incandescent, halogen and fluorescent lamps are not accepted. Broken lamps will not/cannot be accepted by Venture Lighting. It is unsafe to ship broken HID lamps.

Where do I ship the lamps to?

Once you have your Smartpac Return Authorization number, then ship the lamps to Venture's Glenwillow, OH location. Call for exact address information.
